

GATE CS 2027 MASTER PREPARATION BLUEPRINT

Official Organizing Institute: IIT Madras | Exam Date: February 2027
Zero-Knowledge to AIR < 100 Execution Guide (21 Sep 2026 – Feb 2027)

THE 6-HOUR/DAY HIGH-YIELD ENGINE (Why 6 Hours is Optimal)

139 Days × 6 Hours = 834 High-Intensity Hours. In GATE Computer Science, 800+ focused hours with dedicated pen-and-paper PYQ solving is the sweet spot for a single/double-digit All India Rank (AIR < 100). Passive 10-hour video watching leads to mental fatigue and poor retention. 6 hours divided into 4 structured blocks delivers peak cognitive clarity.

Session Time	Track & Focus	Daily Core Activity	Locked Resource
07:00 – 09:00 AM (2.0 hrs)	Track A Math & Algorithms	Concept lecture + Derivations + 1-Page Short Notes summary.	GO Classes / Neso Academy
09:30 – 10:30 AM (1.0 hr)	Track A PYQs Problem Solving	Solve 15 GateOverflow PYQs independently on rough paper.	GateOverflow Question Bank
03:00 – 05:00 PM (2.0 hrs)	Track B Systems & Theory	Concept lecture (TOC/COA/OS/DBMS/CN) + handwritten traces.	Vishwadeep Gothi / Amit Khurana
06:00 – 07:00 PM (1.0 hr)	Track B PYQs & Mistake Log	Solve 10–12 PYQs + Enter wrong questions into Mistake Notebook + 15m Apti.	GateOverflow + Mistake Vault

4-PHASE STRATEGIC TIMELINE & DEADLINES

Phase	Dates & Duration	Core Target & Deliverable	Milestone Outcome
Phase 1 Foundation & 1st Pass	21 Sep – 27 Dec 2026 (14 Weeks / 98 Days)	100% Official IIT Madras Syllabus coverage + 35-year GateOverflow PYQs topic-wise + Short Notes.	Zero syllabus backlog
Phase 2 Consolidation & Rev 1	28 Dec 2026 – 10 Jan 2027 (2 Weeks / 14 Days)	1st Complete Revision + Re-solve ALL Red-tag PYQs + Multi-subject combination mock tests.	Formula & concept seal
Phase 3 Mocks & Rev 2	11 Jan – 31 Jan 2027 (3 Weeks / 21 Days)	10 Full-Length CBT Mocks (09:30 AM) + 4-Hour Post-Mortem error audit per test + 2nd Complete Revision.	Target 75+ in Mocks
Phase 4 Final Exam Climax	01 Feb – Exam Day 2027 (1 Week / 7 Days)	Formula speed runs + Mistake Notebook review + Virtual calculator drills + Peak mental rhythm.	AIR < 100 on Exam Day

STARTING TODAY — DAY 1 (21 September 2026)

Track A (Morning): C Programming Basics — Watch Neso Academy C Playlist (Videos 1–15). Write the Operator Precedence Table in your notes. Solve 10 PYQs on GateOverflow C Basics.

Track B (Evening): Discrete Mathematics — Watch GO Classes Propositional Logic (Lectures 1–3). Write 10 logical equivalence laws. Solve 8 GateOverflow Propositional Logic PYQs.

Night: Log any wrong/doubtful questions in the Mistake Notebook and check off Day 1 in your tracker!
